

Refurb for Real: sustainable retrofitting of existing stock

Sample Agenda

ECD architects, Keegans and Sustainable Homes have teamed up to bring you an in-depth and interactive one-day workshop on refurbishing existing stock. Come and discuss with experts on possible works to your stock. Hear from those that made significant improvements to a variety of homes and learn from their experiences. The day is about practical changes that can be made and designing a way forward for your stock.

09:30 Arrivals and refreshments
